You'll definitely do a double-take when you see Spirex™. It might seem a little strange seeing a double paddle handle on a spinning reel, but just wait until you give it a spin. The double paddle handle enhances the effect of ultra-smooth DynaBalance™ to an even further extreme. We double-dog dare you to find anything smoother.

Spirex™ is loaded with all kinds of great attributes. It has a choice of front or rear drags, 4 ball bearings, an oversized line guide roller, and a spare graphite spool. Spools are long cast design and tapered for improved casting over standard spools. On top of all this, Spirex™ is moderately priced.
