|-----------|----------------------|------------|-----------|----------|
| ST-2000FB | 6/170, 8/120, 10/100 | 6.0:1 | 9.3 | 5 |

A good thing has just gotten better! Stradic™ has been redesigned. Over the past two years Stradic™ became known for its exceptional smoothness and appearance. If you liked it then, you should really like it now.

How has Stradic™ been so greatly improved? Most prominently, Stradic™ now has DynaBalance™, which eliminates rotor wobble to create the smoothest retrieves you've ever experienced. On appearance, just take a look at Stradic's picture. Hooksets are quicker with the new Super Stopper™ anti-reverse. Not changing - Stradic™ still features a spare aluminum spool, AeroWrap™, an oversized ball bearing roller line guide, and fast gear ratios.
