The purpose of a fishing trip is to have fun. A big part of this fun is playing with all the equipment (i.e. sorting the lures in the tackle box, steering the boat, wearing your favorite clothes). A solid, superbly operating reel only helps to heighten the pleasure of the experience.

Cranking Citica's new long-throw handle with soft oversized paddles, retrieving a deep-diving crankbait on it's smoothly geared 3 bearing drive train, and feeling a fish pulling line off it's super smooth drag is nothing but fun! Citica™ is not only fun, but also convenient. The QuickFire II® clutch bar is located directly behind the spool for maximum thumbing control, and the modern, ergonomic shape rests comfortably in the hand. Last, but not least, Citica™ has been made to be even more reliable. This year the clutch system has been redesigned and improved to insure solid and decisive engagement.

Citica™ gives you maximum control with it's QuickFire II clutch bar directly behind the spool.
